Meet a friend at the gallery, take turns describing the art to each other.

If you're alone, describe it to yourself.

You could use your coat or jumper as a pillow, and maybe take a blanket too?

Create a soundtrack to your gallery experience. Get your headphones on and immerse yourself in an audio-visual experience. You could even indulge in a bit of silent-disco dancing if you like...

## Action

# Art Doctor Card

Show this Art Doctor card to a gallery assistant. Do you have any questions? Ask them to tell you what they think about the artwork.

## Activity

# Write a Story

Choose a piece of art. What's the story behind the picture? Write one down, or tell it to someone.

## Activity

# Show Your Work

Place some of your own art, or something from your pocket or bag, in the gallery and photograph it. Now you're exhibiting there too!

## Activity

# Make Slippers

Make yourself some comfy felt slippers to wear in the gallery.

Do you feel more at home?

Does wearing them change anything?

## Questions

**Take these questions with you. They might help you experience the art differently.**

Would I live with this in my house?  
(If so, which room?)

Maybe just looking is enough?

How does this make me feel?

But what does it mean?

Why don't I love this?

Why do I love this?

Could I make that?

Is this exciting?

Is this fun?

Any response is valid...
